SOURCE EVALUATIONS ARE POSITIVE. APPASAMC CONTENT IS POSITIVE.

1. Antiaircraft artillery troops are quartered in barracks at the entrance of Kunratice, just southeast of Prague. A sentinel guards the gate, and about ten men with black epaulets were seen entering. The number of buildings could not be determined. Four tarpaulin-covered 85-millimeter AA guns were seen in the courtyard.
2. Also observed at Kunratice was a military cantonment composed of numerous wood barracks on which large antennas were stretched. About 20 men with black epaulets were seen.
3. map section showing the location of the two installations described above.
